Message by the Hon'ble Chairman

Today is the start of a new adventure, new challenges to face, new memories to make and new obstacles to overcome. Education at S.V.V. is not only an academic activity, it also teaches life skills

which brings about holistic development of the child. The teaching learning system uses project method with a lot of creative activities coupled with activities such as music, dance, art and craft, drama, sports and educational tours.

We are committed to quality education & believe that the biggest gift that we can give to children is a holistic education. Our Mission is to educate the students using the modern methodologies & create milestones in academic achievements. We are keen to revive the declining moral values & we enable children to face the challenges of life.

Gandhiji once mentioned 'Knowledge without character is one of the social sins'. S.V.V. is the temple where pursuit of knowledge is of equal importance as character building. The resources here are not only to help you, your lessons well but also to build your character.

This news letter shares the joy of learning, the enthusiasm and talents of our children, the achievements of the past academic session and our pursuit for excellence.

I congratulate the editorial board on the publication of the second edition of the News Letter 'Solitaire'. I thank all the Staff members for their dedicated services and parents for their co-operation throughout the year. Together, let us move forward to success & more success.

With best wishes

Shri Ramnikbhai Davariya
Chairman

From the Principal's Desk

It gives me immense pleasure in bringing out the second issue of the school newsletter, "S.V.V. Newsletter Solitaire".

Engaged in the challenging task of keeping pace with the growing educational demands of the new millennium, S.V.V. is continuing to grow in all spheres of education and occupies a distinctive place among the leading educational institutions of today. Its multidimensional achievements, in the field of co-curricular and extracurricular activities, in the area of sports and most importantly, in academics, bear testimony to this fact.

The teaching as well as the learning process has never been so dynamic as it is today. The concept of education is undergoing such rapid changes that educationists and educational policy makers are hard put to make education meaningful in the present day world context. To make this teaching process a never ending quest for excellence, we, at S.V.V. are keeping abreast with the changing time. The school staff is continuously upgrading itself with the latest educational techniques, and is adequately trained to handle the new education system of the 21st century.

At S.V.V., we aspire to draw out the best in the students, not only in the intellectual but also in the moral, social and personal spheres with a view to moulding the young impressionable minds to nobler goals of life.

I congratulate the editorial board for its good work in bringing out this issue.

With best wishes

Dr. A K Gaur
Principal
